

# INTERCONNECT

## INTERCONNECTION Between Short- and Long-Distance Transport Networks

DELIVERABLE D4.1

### FACTORS AFFECTING INTERCONNECTIVITY IN PASSENGER TRANSPORT

---

Due Date: 30 September 2010  
Submitted: 13 October 2010  
Main Author: Mcrit  
Dissemination: Public

Project co-funded by the European Commission within the Seventh Framework Programme, Theme 7 Transport  
Contract number 233846

Project Start Date: 1 June 2009, Project Duration: 24 months

## Document Control Sheet

<b>Project Number:</b>	019746		
<b>Project Acronym:</b>	INTERCONNECT		
<b>Workpackage:</b>	WP4 In-Depth Analysis through Case Studies		
<b>Version:</b>	V1.0		
<b>Document History:</b>	<b>Version</b>	<b>Issue Date</b>	<b>Distribution</b>
	V0.1	23 April 2010	Consortium
	V0.2	4 June 2010	Consortium
	V0.3	10 Sept 2010	Consortium
	V0.4	07 Oct 2010	Consortium
	V1.0	13 Oct 2010	Public

Classification – This report is:									
Draft		Final	X	Confidential		Restricted		Public	X

<b>Partners Owning:</b>	All
<b>Main Editor:</b>	Andreu Ulied, Oriol Biosca (Mcr)
<b>Partners Contributed:</b>	Bryan Matthews, Jeremy Shires (ITS), Oliver Schnell, Benedikt Mandel (MKm), Christiane Bielefeldt, Gordon Wilmsmeier (TRI), Claudia de Stasio, Paola Raganato (TRT), Monika Bak, Przemyslaw Borkowski (UG), Søren Saugstrup (TET)
<b>Made Available To:</b>	All INTERCONNECT Partners

## TABLE OF CONTENTS

<b>EXECUTIVE SUMMARY.....</b>	<b>1</b>
<b>1 INTRODUCTION.....</b>	<b>5</b>
1.1 INTERCONNECTIVITY AND CO-MODALITY IN EUROPEAN TRANSPORT NETWORKS.....	5
1.1.1 <i>The Complexity of Planning and Managing Interconnections in European Transport Networks</i> .....	5
1.1.2 <i>The Geography of Interconnections in Europe</i> .....	6
1.1.3 <i>Technological and Organisational Innovation in European Transport Networks</i> .....	15
1.2 A CASE STUDY APPROACH .....	16
1.3 CASE STUDY PORTRAITS .....	20
1.4 FOLLOWING UP CASE STUDIES: WP4 INPUTS FOR WP5 .....	23
<b>2 FRANKFURT AIRPORT INTERCONNECTIONS.....</b>	<b>26</b>
2.1 THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	26
2.2 GENERAL DESCRIPTION OF THE CASE STUDY.....	26
2.2.1 <i>Targets to be Achieved</i> .....	26
2.2.2 <i>Background and Current Situation</i> .....	27
2.2.3 <i>Geographic Coverage</i> .....	29
2.3 SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	29
2.3.1 <i>Modes and Infrastructure Involved</i> .....	29
2.3.2 <i>Existing Institutional and Regulatory Barriers</i> .....	30
2.3.3 <i>Intermodal and Interconnection Opportunities</i> .....	30
2.4 SOLUTIONS ALREADY IN PLACE .....	31
2.4.1 <i>Overview</i> .....	31
2.4.2 <i>The Long-distance Railway Station at Frankfurt Airport, its Links and Rail Services</i> .....	31
2.4.3 <i>Rail&amp;Fly: Integrated Ticketing and Pricing for Air/Rail Passengers</i> .....	39
2.4.4 <i>The AirRail Concept of Lufthansa and Deutsche Bahn</i> .....	41
2.5 SUMMARY OF CONCLUSIONS .....	46
<b>3 CATALAN AIRPORT SYSTEM INTERCONNECTIONS: BARCELONA, GIRONA, REUS AND LLEIDA.....</b>	<b>47</b>
3.1 THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	47
3.2 GENERAL DESCRIPTION OF THE CASE STUDY.....	48
3.2.1 <i>The Current Situation</i> .....	48
3.2.2 <i>Airport Traffic: Recent Evolution and Forecast</i> .....	50
3.2.3 <i>Airport Capacity</i> .....	52
3.2.4 <i>Geographic Coverage</i> .....	53
3.3 SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	55
3.3.1 <i>Modes and Infrastructure Involved</i> .....	55
3.3.2 <i>Intermodal and Interconnection Opportunities</i> .....	57
3.3.3 <i>Stakeholders Involved</i> .....	59
3.3.4 <i>Current Cohesiveness of Multi-modal Networks</i> .....	60
3.4 SOLUTIONS ENVISAGED .....	74
3.4.1 <i>Overview</i> .....	74
3.4.2 <i>HSR Direct Access to Barcelona and Lleida Airport Terminals</i> .....	75
3.4.3 <i>Barcelona City - Airport Interconnection: People-Mover, Metro and Heavy Rail Link Compared</i> .....	80
3.4.4 <i>HSR – Airport Interconnection in Girona and Reus: Tramway Links and Bus Shuttle Services Compared</i> .....	86
3.5 SUMMARY OF CONCLUSIONS.....	91

TABLE OF CONTENTS (Continued)

<b>4</b>	<b>MILANESE AIRPORT SYSTEM INTERCONNECTIONS: MALPENSA, LINATE AND ORIO AL SERIO</b> .....	<b>93</b>
4.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	93
4.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	93
4.2.1	<i>Milanese Airports Development</i> .....	93
4.2.2	<i>Geographic Coverage</i> .....	96
4.2.3	<i>Airport Traffic</i> .....	97
4.2.4	<i>Airport Regulation</i> .....	101
4.2.5	<i>Alitalia's Crises</i> .....	102
4.2.6	<i>Traffic Forecasts</i> .....	103
4.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	103
4.3.1	<i>Modes and Infrastructure Involved</i> .....	103
4.3.2	<i>Intermodal and Interconnection Opportunities</i> .....	119
4.3.3	<i>Stakeholders Involved</i> .....	120
4.3.4	<i>Current Cohesiveness of Multi-modal Networks</i> .....	121
4.4	SOLUTIONS ALREADY IN PLACE .....	122
4.5	SOLUTIONS ALREADY ENVISAGED .....	122
4.5.1	<i>New Rail Services from Malpensa to Milano Centrale</i> .....	123
4.5.2	<i>New HSR Connections for Malpensa</i> .....	124
4.5.3	<i>Novara – Malpensa Rail Section Upgrade</i> .....	126
4.5.4	<i>Saronno – Seregno Rail Section Upgrade for Malpensa</i> .....	129
4.5.5	<i>Heavy Rail Link for Malpensa: New Rail Connections with Simplon and Gottardo Lines</i> .....	131
4.5.6	<i>Rho-Gallarate Rail Section Upgrading for Malpensa</i> .....	133
4.5.7	<i>New Rail Connection Between Malpensa Terminal 1 and Terminal 2</i> .....	135
4.5.8	<i>New Rolling Stock for Malpensa Express Service</i> .....	136
4.5.9	<i>Improving Road Network Accessibility for Malpensa</i> .....	138
4.5.10	<i>New Metro Connection with Linate</i> .....	140
4.5.11	<i>Maxi-Tunnel from A8 Motorway to Linate Airport</i> .....	143
4.5.12	<i>Heavy Rail Link or Monorail / People Mover for Orio al Serio: New Connection with Bergamo</i> .....	145
4.6	PROBLEMS STILL TO BE SOLVED .....	145
4.6.1	<i>Lack of Integrated Ticketing</i> .....	145
4.6.2	<i>Lack of Adequate Information to Users</i> .....	146
4.6.3	<i>Lack of Check-in Facilities</i> .....	146
4.7	POTENTIAL SOLUTIONS.....	146
4.8	SUMMARY OF CONCLUSIONS.....	147
<b>5</b>	<b>SCOTTISH AIRPORT SYSTEM INTERCONNECTIONS: EDINBURGH, GLASGOW AND PRESTWICK</b> .....	<b>150</b>
5.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	150
5.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	150
5.2.1	<i>Scotland's Population and Geography</i> .....	150
5.2.2	<i>Scotland's Transport System</i> .....	150
5.2.3	<i>Glasgow, Edinburgh and Prestwick Airports</i> .....	154
5.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	154
5.3.1	<i>Modes and Infrastructure Involved</i> .....	154
5.3.2	<i>Current Multi-modal Options and Intermodal and Interconnection Opportunities</i> .....	155
5.3.3	<i>Stakeholders Involved</i> .....	156
5.4	SOLUTIONS ALREADY IN PLACE .....	158
5.4.1	<i>Overview</i> .....	158
5.4.2	<i>Regular Bus Services</i> .....	158
5.4.3	<i>Express Bus Services</i> .....	162
5.4.4	<i>Demand-Responsive Service</i> .....	167
5.4.5	<i>Heavy Rail Link</i> .....	168
5.4.6	<i>Other Solutions in Place</i> .....	171

TABLE OF CONTENTS (Continued)

5.5	SOLUTIONS ALREADY ENVISAGED .....	173
5.5.1	Overview.....	173
5.5.2	Tram Link to Edinburgh Airport.....	173
5.5.3	Heavy Rail Link to Edinburgh Airport.....	179
5.5.4	Heavy Rail Link to Glasgow Airport.....	182
5.6	PROBLEMS STILL TO BE SOLVED.....	185
5.7	POTENTIAL SOLUTIONS.....	187
5.8	SUMMARY OF CONCLUSIONS.....	188
<b>6</b>	<b>INTERCONNECTIVITY OF RAIL AT LEEDS RAILWAY STATION.....</b>	<b>190</b>
6.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	190
6.2	GENERAL DESCRIPTION OF THE CASE STUDY .....	190
6.2.1	Overview.....	190
6.2.2	Train Services at Leeds Railway Station.....	193
6.2.3	Stakeholders Involved.....	194
6.2.4	Current Access Modes.....	195
6.3	SOLUTIONS ALREADY IN PLACE .....	197
6.3.1	Overview.....	197
6.3.2	Refurbishment Programme.....	197
6.3.3	New Bus Interchange.....	199
6.3.4	Leeds Free City Bus .....	200
6.4	SOLUTIONS ALREADY ENVISAGED .....	200
6.4.1	Overview.....	200
6.4.2	Station Travel Plan.....	200
6.4.3	Leeds Rail Station – New Southern Entrance.....	201
6.4.4	Yorcard.....	201
6.4.5	Cyclepoint.....	201
6.4.6	Trolley Bus City Centre Loop.....	201
6.4.7	Leeds City Region TramTrain.....	201
6.5	PROBLEMS STILL TO BE SOLVED .....	202
6.6	POTENTIAL SOLUTIONS .....	203
6.7	SUMMARY OF CONCLUSIONS.....	204
<b>7</b>	<b>MILAN RAILWAYS NODE .....</b>	<b>206</b>
7.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	206
7.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	206
7.2.1	Overview.....	206
7.2.2	TEN-T and the High Speed Rail network.....	207
7.2.3	Regional rail service.....	209
7.2.4	Suburban Rail Service .....	210
7.2.5	The underground network.....	212
7.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	213
7.3.1	Modes and Infrastructure Involved.....	213
7.3.2	Intermodal and Interconnection Opportunities .....	215
7.3.3	Stakeholders Involved.....	220
7.3.4	Current Cohesiveness of Multi-modal Networks .....	221
7.4	SOLUTIONS ALREADY IN PLACE .....	222
7.4.1	Overview.....	222
7.5	SOLUTIONS ALREADY ENVISAGED .....	223
7.5.1	Overview.....	223
7.5.2	New Metro Lines.....	223
7.5.3	Circle Rail Line.....	225
7.6	PROBLEMS STILL TO BE SOLVED .....	227
7.6.1	Existing Institutional and Regulatory Barriers.....	227
7.6.2	Lack of Adequate Information and Facilities to Users.....	228
7.6.3	Lack of Intermodality Facilities at the Interchange Points .....	228

TABLE OF CONTENTS (Continued)

7.6.4	<i>Gaps and Inconsistencies in the Strategic Planning Processes</i> .....	228
7.6.5	<i>Lack of Integrated Timetabling</i> .....	228
7.7	POTENTIAL SOLUTIONS.....	228
7.8	SUMMARY OF CONCLUSIONS.....	229
<b>8</b>	<b>THE DUAL-MODE RAILWAY SYSTEM: THE KARLSRUHE MODEL .....</b>	<b>232</b>
8.1	THE (KEY) ISSUES ADDRESSED BY THIS CASE STUDY .....	232
8.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	232
8.2.1	<i>Background and Current Situation</i> .....	232
8.2.2	<i>Geographic Coverage</i> .....	233
8.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	234
8.3.1	<i>Modes and Infrastructure Involved</i> .....	234
8.3.2	<i>Existing Institutional and Regulatory Barriers</i> .....	235
8.3.3	<i>Intermodal and Interconnection Opportunities</i> .....	235
8.4	CHARACTERISTICS OF THE SOLUTIONS ALREADY IN PLACE.....	237
8.4.1	<i>The Connection Points</i> .....	237
8.4.2	<i>The TramTrain Vehicles</i> .....	238
8.4.3	<i>Improvement of Links</i> .....	239
8.4.4	<i>Improvement of Stations and Interchanges</i> .....	244
8.4.5	<i>Improvement of Services</i> .....	245
8.4.6	<i>Integrated Ticketing and Pricing</i> .....	248
8.4.7	<i>Consistent Travel Information across Modes</i> .....	249
8.4.8	<i>Legal and Organisational Arrangements</i> .....	250
8.4.9	<i>Assessment Against Toolkit Criteria</i> .....	252
8.5	TRANSFERABILITY OF SOLUTIONS .....	257
8.6	SUMMARY OF CONCLUSIONS.....	258
<b>9</b>	<b>TRAIN-TAXI AND FEEDER BUS SERVICES .....</b>	<b>260</b>
9.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	260
9.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	261
9.2.1	<i>Overview</i> .....	261
9.2.2	<i>Geographic Coverage</i> .....	262
9.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	262
9.3.1	<i>Modes and Infrastructure Involved</i> .....	262
9.3.2	<i>Intermodal and Interconnection Opportunities</i> .....	262
9.3.3	<i>Stakeholders Involved</i> .....	262
9.3.4	<i>Current Cohesiveness of Multi-modal Networks</i> .....	263
9.4	SOLUTIONS ALREADY IN PLACE .....	265
9.4.1	<i>Overview</i> .....	265
9.4.2	<i>UK Train-Taxi</i> .....	265
9.4.3	<i>Dutch Train-Taxi</i> .....	267
9.4.4	<i>Plusbus</i> .....	268
9.4.5	<i>Solutions for “the Last Few Miles”</i> .....	270
9.5	SOLUTIONS REPRESENTED BY TRAIN-TAXI AND PLUSBUS .....	270
9.5.1	<i>Intermodal Agreements</i> .....	270
9.5.2	<i>Franchising/Tendering/Concessioning</i> .....	272
9.5.3	<i>Simple Tariff</i> .....	273
9.5.4	<i>An Integrated Ticketing Scheme for Public Transport &amp; Rail</i> .....	275
9.5.5	<i>Uniform Branding and Marketing across Operators</i> .....	276
9.5.6	<i>Effective Marketing of Connecting Services – Pre-Trip</i> .....	277
9.6	PROBLEMS STILL TO BE SOLVED.....	279
9.6.1	<i>Timetabling &amp; Links &amp; Interchanges</i> .....	279
9.6.2	<i>Ticketing</i> .....	280
9.6.3	<i>Information and Marketing</i> .....	280

TABLE OF CONTENTS (Continued)

9.7	POTENTIAL SOLUTIONS .....	280
9.7.1	Overview .....	280
9.7.2	Link into General Bus Lines .....	280
9.7.3	Effecting Marketing of Connecting Services – Pre-trip & Wayside .....	282
9.8	SUMMARY OF CONCLUSIONS .....	284
<b>10</b>	<b>AMSTERDAM FERRY SERVICES .....</b>	<b>286</b>
10.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	286
10.2	GENERAL DESCRIPTION OF THE CASE STUDY .....	286
10.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY .....	287
10.3.1	Modes and Infrastructure Involved .....	287
10.3.2	Intermodal and Interconnection Opportunities .....	288
10.3.3	Current Integration of Public Transport Services .....	291
10.3.4	Stakeholders Involved .....	292
10.3.5	Current Cohesiveness of Multi-modal Networks .....	293
10.3.6	Targets to be Achieved .....	294
10.4	SOLUTIONS ALREADY IN PLACE .....	294
10.4.1	Overview .....	294
10.4.2	Integrated Ticketing .....	295
10.4.3	Marketing of interconnection with other transport modes and private independent services .....	300
10.5	SOLUTIONS ALREADY ENVISAGED .....	302
10.6	PROBLEMS STILL TO BE SOLVED .....	302
10.7	POTENTIAL SOLUTIONS .....	302
10.7.1	Overview .....	302
10.7.2	Integration of Fast Flying Ferry Services .....	302
10.8	SUMMARY OF CONCLUSIONS .....	304
<b>11</b>	<b>LISBON FERRY SERVICES .....</b>	<b>306</b>
11.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	306
11.2	GENERAL DESCRIPTION OF THE CASE STUDY .....	306
11.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY .....	308
11.3.1	Modes and Infrastructure Involved .....	308
11.3.2	Current Multi-modal Options and Intermodal and Interconnection Opportunities .....	314
11.3.3	Stakeholders Involved in the Portuguese Transport System .....	314
11.3.4	Current Cohesiveness of Multi-modal Networks .....	316
11.4	SOLUTIONS ALREADY IN PLACE .....	316
11.4.1	Overview .....	316
11.4.2	Intermodal Ferry Terminals – Improving Interchanges .....	317
11.4.3	Integrated Ticketing .....	319
11.4.4	Information and Marketing .....	322
11.4.5	Other Solutions in Place .....	323
11.5	SOLUTIONS ALREADY ENVISAGED .....	324
11.6	SUMMARY OF CONCLUSIONS .....	324
<b>12</b>	<b>HELSINGBORG FERRY TERMINAL .....</b>	<b>326</b>
12.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	326
12.2	GENERAL DESCRIPTION OF THE CASE STUDY .....	326
12.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY .....	329
12.3.1	Modes and Infrastructure Involved .....	329
12.3.2	Stakeholders Involved .....	330
12.3.3	Current Cohesiveness of Multi-modal Networks .....	331
12.4	SOLUTIONS ALREADY IN PLACE .....	331

TABLE OF CONTENTS (Continued)

12.5	SOLUTIONS TO BE IMPLEMENTED .....	332
12.5.1	<i>Improvements to the Passenger Flow within Knutpunkten</i> .....	332
12.5.2	<i>Scandlines and HH-ferries Entering into a Voluntary Partnership</i> .....	335
12.6	SUMMARY OF CONCLUSIONS .....	336
<b>13</b>	<b>ROSTOCK FERRY TERMINAL .....</b>	<b>337</b>
13.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	337
13.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	337
13.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	340
13.3.1	<i>Modes and Infrastructure Involved</i> .....	340
13.3.2	<i>Stakeholders Involved</i> .....	341
13.3.3	<i>Current Cohesiveness of Multi-modal Networks</i> .....	341
13.4	SOLUTIONS ALREADY ENVISAGED .....	342
13.4.1	<i>Shuttle Bus from the Port to the City Centre</i> .....	342
13.4.2	<i>Overview of Current Interchange Options</i> .....	343
13.5	POTENTIAL SOLUTIONS.....	345
13.6	SUMMARY OF CONCLUSIONS .....	346
<b>14</b>	<b>TRI-CITY GDANSK / SOPOT / GDYNIA.....</b>	<b>347</b>
14.1	THE KEY ISSUES ADDRESSED BY THIS CASE STUDY .....	347
14.2	GENERAL DESCRIPTION OF THE CASE STUDY.....	348
14.3	SPECIFIC CHARACTERISTICS OF THE CASE STUDY.....	349
14.3.1	<i>Modes and Infrastructure Involved</i> .....	349
14.3.2	<i>Intermodal and Interconnection Opportunities</i> .....	352
14.3.3	<i>Stakeholders Involved</i> .....	354
14.3.4	<i>Current Cohesiveness of Multi-modal Networks</i> .....	354
14.4	SOLUTIONS ALREADY IN PLACE .....	356
14.4.1	<i>Overview</i> .....	356
14.4.2	<i>City Terminal of Gdansk Airport</i> .....	357
14.4.3	<i>Water-Tram Connecting Tri-City and Hel Peninsula</i> .....	358
14.4.4	<i>City Card in Gdansk</i> .....	362
14.5	SOLUTIONS ALREADY ENVISAGED .....	364
14.5.1	<i>Overview</i> .....	364
14.5.2	<i>Southern Rail Link to the Airport</i> .....	364
14.5.3	<i>Second Stage of Tri-City Metropolitan Transport Network of Bay of Gdansk</i> .....	367
14.5.4	<i>New Passenger Terminal at Lech Walesa Airport</i> .....	369
14.5.5	<i>Improved links to Westerplatte Ferry Terminal</i> .....	373
14.6	PROBLEMS STILL TO BE SOLVED .....	376
14.6.1	<i>The Existing Institutional and Regulatory Barriers</i> .....	376
14.6.2	<i>The Gaps and Inconsistencies in Strategic Planning Processes</i> .....	377
14.6.3	<i>Lack of Investment and Failure to Innovate</i> .....	379
14.6.4	<i>Lack of Capacity or Infrastructure</i> .....	379
14.7	SUMMARY OF CONCLUSIONS .....	385
<b>15</b>	<b>OVERALL CONCLUSIONS CONCERNING FACTORS AFFECTING INTERCONNECTIVITY IN PASSENGER TRANSPORT .....</b>	<b>387</b>
15.1	LEARNED LESSONS FROM CASE STUDIES.....	387
15.1.1	<i>Rail Interconnections allow Frankfurt Airport to Become a Global Intermodal Hub</i> .....	387
15.1.2	<i>Rail Interconnection Aims to promote Barcelona, Girona, Reus and Lleida as an Integrated Airport Network</i> .....	387
15.1.3	<i>Effective Interconnections for Airport Access in Milan cannot Exist without Careful Planning of Infrastructures and Services</i> .....	388
15.1.4	<i>Integrated Rail Connections to Airports could Potentially Increase Public Transport Mode Share in Access to Scottish Airports</i> .....	389

TABLE OF CONTENTS (Continued)

15.1.5	<i>The Impacts of Interconnections may be Difficult to Assess at Leeds Railway Station</i>	390
15.1.6	<i>The Milan Railways Node needs Improvements in Integration between Long Distance and Local Services</i>	391
15.1.7	<i>The Dual-mode Railway System is an Efficient Solution for Interconnectivity in Medium-Sized Urban Areas: the Karlsruhe model</i>	391
15.1.8	<i>Train-Taxi and Feeder Bus Services are a Solution for the Final Few Miles</i>	392
15.1.9	<i>Integration of Ferry Services at Local and Intercontinental Level in Amsterdam</i>	392
15.1.10	<i>Cohesiveness of the Network Allows Ferry Services in Lisbon to Maintain Competitiveness even with New Bridge Connections Across the Tagus</i>	393
15.1.11	<i>Integrating Two Former Train Stations and the Bus Terminal in the Helsingborg Ferry Terminal</i>	394
15.1.12	<i>Rostock Ferry Terminal Interconnections Could Improve Non-motorised Passengers Accessibility</i>	395
